CUSTOM OF
TIPPING IS
YET LEGAL

House Killed Measure Proposing to Make It Unlawful

INDETERMINATE SENTENCE LAW STILL IN FORCE.

EXTENDING STATE LOAN

Of Funds to Building Associations in Districts Devastated By 1913 Floods—Legislature is Now Down to Business, and is Getting Out the Work.

Columbus, Feb. 10.—By killing two bills on the floor, the house yesterday permitted the indeterminate sentence law to remain in effect and the custom of tipping to be continued.

The fourth bill to be passed by both houses during this session was the Tremper senate measure providing a two-year extension for the state loan of funds to building and loan companies in districts devastated by the 1913 flood, passed unanimously by the house.

Anticipating favorable action by the senate on the Whitacre bill appropriating \$5,000 for extension of the state's free employment agency system, which the house passed yesterday, the industrial commission today began consideration of the immediate establishment of additional agencies. The department has been considered favorable to placing three in the northeastern part of the state, probably at Canton, Akron and Youngstown. Recently it has added Springfield to the list of possible locations for an agency.

The Whitacre bill providing for stricter regulation of private employment agencies by the state industrial commission, was ready for introduction in the house today.

Representatives of labor interests today expressed displeasure over the house's action in killing the anti-tipping bill introduced by Representative Brown of Ashland, a Democrat. They pointed out that the vote of 46 in favor and 51 against the bill indicated that a large proportion of the representatives considered the measure seriously, despite the number of facetious amendments offered to it and the merriment indulged in during its consideration.

Serious proponents of the measure urged that tipping is a snobbish custom and that it should be nipped by law before it becomes as prevalent as it is in Europe. As amended, the bill would have exempted from its operation waitresses in hotels and restaurants. This amendment was offered by Representative Whitmore of Summit, Republican house leader, who said it was intended to benefit legislators whom he had noticed active in tipping waitresses since coming to Columbus.

Another amendment to make the penalty for accepting or giving tips or allowing an employee to accept them, life imprisonment, "without hope of pardon" was defeated. The penalty provided in the bill was a fine of between \$1 and \$130.

Republicans joined with Democrats in killing the Cromley bill which sought to repeal the two-year-old indeterminate sentence law. The vote was 38 to 65. Advocates of repeal declared that judges had authority to give indefinite sentences even before the new law was enacted and similarly that the board of administration had the same powers to parole penitentiary prisoners as they (Continued on Page 2, Col. 2.)

BILLION POUNDS
OF COFFEE CAME
TO U. S. IN 1914

Washington, Feb. 10.—Another record coffee importation into the United States—more than a billion pounds—was made last year, according to the department of commerce today. The 1914 coffee importation was valued at \$105,000,000 or \$25,000,000 less than 1912, the highest value ever recorded. Of the total importation of 1,011,000,000 pounds of coffee in 1914, Brazil is the largest source of any single country. Colombia was second. Hawaii and Porto Rico are furnishing an increasing share of the coffee consumed in continental United States.

The American people consume more of the beverage than those of any other country, the Germans coming next. The per capita consumption of coffee in the United States is now more than 10 pounds compared with 8.3 pounds in 1894.

Proposed Light Plant Bond
Issue Is to be Discussed At The
High School Auditorium Tonigh

There is every indication that there will be a large attendance at the public meeting, which has been called by the city council to discuss the proposed light plant bond issue. The meeting will be held at the High School auditorium at 7:30 o'clock.

The question at issue is whether it is more advisable for the city to move the plant to the waterworks pumping station, install sufficient new and additional machinery as is necessary to produce current to light the city streets with the present number of lights, and provide for about 100 additional lights which are said to be required at the present time.

Service Director Christian, in reports to council has said that it is imperative that boilers at the light plant be renewed and advises that the above changes be made. Councilman W. C. Seward as member of the service commission, in a minority report to council recommended such action. Another report at the same time included a tentative contract from the Ohio Light and Power Company offering current at 1 3/4 cents per kilo-watt hour. This was later reduced to 1 1/10 cents.

It is intimated that the labor unions have become vitally interested in the matter and that the various bodies will be represented at the meeting.

All councilmen and many of the city officials will be present, and it is probable that Engineer Hittner of Mt. Vernon, who submitted an estimate of cost of the proposed changes, will be present.

Bids On Subway Bonds;
Handsome Premium Was
Offered For the Securities

A premium of \$18,255.00 was offered by Seasongood Mayer & Co., of Cincinnati, for the issue of \$240,000 worth of subway bonds, bids for which were opened at noon Wednesday by City Auditor Dodd in the presence of the finance committee of the City Council and City Solicitor Ralph Norpell. The premium is regarded by the city officials as a "good bargain," one official stating that it was larger than was anticipated.

Eleven other bids were received, ranging from \$12,730 to \$17,592. The bonds bear interest at the rate of 5 per cent per annum and the money received from the sale of the bonds will be used to pay the city's portion of the proposed subway improvement, which was voted upon more than a year ago.

The complete list of the bids follows:

Seasongood Mayer & Co., Cincinnati	\$18,255.00
Well Roth & Co., Cincinnati	17,592.00
Otis & Co., Cleveland	17,592.00
Stacey & Braun, Cleveland	16,585.00
R. L. Dollings & Co., Hamilton	16,460.00
Field Richards & Co., Cincinnati	16,260.00
New York Life Ins. Co., New York	15,789.00
Schitzer Rorick & Co., Toledo	15,652.00
Sidney Spitzer & Co., Toledo	14,616.00
Fifth Third National Bank, Cincinnati	14,472.00
Harden Miller & Co., Cleveland	13,560.00
Provident Savings Bank & Trust Co., Cincinnati	12,720.00

No award of the bonds was made Wednesday but Seasongood Mayer &

Co., probably will be awarded the bonds. The premium bid is in addition to the accrued interest.

The bid of R. L. Dollings & Co., of Hamilton, was the highest unconditional bid received, being but \$1,795 lower than Seasongood Mayer & Co. All those who offered higher premiums, made their bids conditional on the approval of the legislation preceding the issue of bonds, by the company's counsel. Dollings & Company's bid contained no such condition. This company is represented in Newark by William Hohl, Jr., and this is the first bid offered by this company for local bonds.

BIDS FOR CITY MONEY.

While the finance committee was assembled, Council Clerk Woodward opened bids from local banks for the deposit of city funds, the interest bid to be paid upon daily balances. The bids, four in number, were as follows: Licking County Bank and Trust Co., 2 1/8 per cent.

First National Bank, 2 1/10 per cent.

Park National Bank, 2 per cent.

Inasmuch as the city funds will include the money derived from the sale of the subway bonds, and the bids received are at a lower rate than is at present paid, it is not impossible that the bids will be rejected and the deposits re-advertised. It is also probable that a separate depository will be advertised for, to care for the subway fund.

MOTHER GETS
\$3,744 FOR
SON'S DEATH

Columbus, Feb. 10.—The state industrial commission granted awards in seven death claims under the workmen's compensation act today. Among those acted upon was that of Mrs. Regina Thornton, Columbus, who was given \$2,230.80. Her husband, Jesse Thornton, while an employee of the city of Columbus, injured his ankle while at work. Blood poisoning followed and he died a few weeks later.

Other awards were: Mrs. Mary Reilly, Newark, \$3,744; Mrs. Josephine W. Stahl, Toledo, \$3,619.20; Mrs. Mary B. Haury, Grafton, \$2,496; Mrs. Elizabeth Laird, Coshocton, \$2,112.

Charles P. Reilly was injured Saturday Dec. 5 at 3:30 p. m. when a bottle machine which was being unloaded from a car at the plant of the American bottle company, fell upon him crushing his body. He died a short time later at the Newark Sanitarium where he was taken in an ambulance.

ARMY PAYMASTER
COURT MARTIALED

Paris, Feb. 10.—Madame Bechoff will be brought before court martial the end of this month, charged with having received army rations which had been appropriated by army paymaster, Desclaux. She is the wife of a Paris dressmaker and she was taken into custody at her home in this city four days ago. The preliminary investigation of her case is now completed. It is charged she knew these military stores were stolen when she received them.

Paymaster Desclaux also will appear before the court as will an army mail carrier named Dauglat, who is charged with having been an accomplice. The mail carrier carried packages from Desclaux's quarters to Mme Bechoff in Paris.

CINCINNATI
ROBBER SHOT
BY CASHIER

Cincinnati, Feb. 10.—A pistol battle between Cashier William Cross of the Mohawk German Banking and Savings company, of this city, and two men who attempted to rob the bank today resulted in the death of one of the robbers.

Cross was uninjured, although the robbers first fired when within a few feet of him and when he made a grab for his pistol after being ordered by the bandits to throw up his hands. Following the first shot, the robbers grabbed a handful of bills lying on the cashier's desk and darted through the door. Cross followed, firing, and one of the men dropped with a bullet in him. He was removed to a hospital, where he died shortly afterward. Bank officials claim that about \$700 was obtained.

The other robber was caught later in a cellar not far from the bank and with him was found the stolen money. He gave his name as William H. Patterson of Covington, Ky., and said that he knew the dead robber only as "Mark". He said he did not know where the dead man was from.

U. S. SENATE
HAS BROKEN
ALL RECORDS

For Continuous Session, At Least In the Present Generation

SPEECHES CONTINUE FAR INTO EARLY MORNING.

GOVERNMENT OWNERSHIP

Of Ships Discussed From Every Angle, the Opponents of the Present Bill Continuing Their Fight Long After Record for Endurance Had Become History.

Washington, Feb. 10.—All records for continuous sessions in the senate in the present generation, at least, were broken today by the prolongation of Monday's session devoted to the administration ship purchase bill over the morning hours. In 1893, the repeal of the silver purchase clause of the Sherman law kept the senate in continuous session for 38 hours and 45 minutes, a record for that period and one that was not surpassed until 2:45 a. m. today.

Still the opponents of the passage of the shipping bill fought on, after their record for endurance had gone down as historical. Senator Sherman, who occupied the floor, discussed the evils of government ownership as Senator after Senator disappeared to his home or committee room for a little rest, and a shift of janitors moved noiselessly about the chamber clearing up the rubbish that had collected on the floor during the two-day session.

Senator Lee of Tennessee, president, and Senator Lee of Maryland, constituted the entire majority side of the chamber. Senators Smoot, and William Alden Smith of Michigan, were the only Republicans present for hours, in addition to Senator Sherman.

With their eyes badly swollen from the strain of the extraordinary work the regular force of official reporters were compelled to give way, and new stenographers, reporters, for the first time in years took their places on the floor.

The period of calm early today came only after a bitter struggle for supremacy about midnight. The Republicans and their supporters on the Democratic side sought to end the session, but the motion to adjourn was lost by a vote of 44 to 44.

On the other hand, Senators Fletcher and Stone attempted to get a vote on the initial portions of the recommendation motion, namely the length of the term for which the government ship might be leased. Republican Senators clamored in excitement for the right to speak, but Senator Stone obtained the floor, cutting off Senators McCumber's speech far into the morning hours.

A parliamentary wrangle ensued and the democrats abandoned their efforts to force a vote, although every available senator and vice president Marshall were called to the chamber. Only one attempt was made during the early morning hours of Senator Sherman's speech to take him from the floor. With Senator James in the chair for a few moments, Senator Hughes made the point of order that Senator Sherman was not discussing the bill. Senator Sherman explained that his remarks regarding the operation of the parcel post system were in order because they dealt with government ownership. Senator Hughes finally withdrew his point. Senator Kern, however, serving notice that he might renew the point later.

It was 9 o'clock this morning before the weary night watchers on the floor were relieved. Senators who had slept in the capital committee rooms were to be seen making down the corridors for the barber shop and later, one by one took their places on the floor.

"Is this tomorrow or the next day?" inquired Senator Gallinger. (Continued on Page 2, Col. 4.)

Latest Photograph of German Chief of Staff.

This is the latest photograph of General von Falkenhayn, the man on whom the burden of war rests more in Germany than any other except the kaiser himself. He succeeded General von Moltke as chief of staff some weeks ago, and during most of that time he has been in the field. General von Falkenhayn was minister of war in July when the conflict broke out, and the kaiser was so well pleased with his work that he was promoted as soon as von Moltke was displaced.

Too Many High Salaries
In Highway Department,
Is Testimony Advanced

Columbus, Feb. 10.—K. McKinley, engineer in charge of the efficiency department of the state civil service commission, told the Howard department survey committee today that there is so little system in the state highway department that engineers in charge of road or bridge work often work at cross purposes. There are too many "engineers" employed to do clerical work. He recommended that the highway commissioner's salary be increased from \$4,000, which Commissioner James R. Mark receives, to \$6,000. Two positions of deputy commissioners which pay \$3,000, should be abolished, however, Mr. McKinley suggested, and the remaining deputy given \$4,000. Four of the twelve division engineers employed now could be eliminated with increase in efficiency, he said.

He suggested a plan for reorganization of the entire department on "efficiency lines," the increase of salaries of lower employees and assignment of definite duties to them. The military system of organization of any department is coming to be recognized as less efficient than the system of giving more personal responsibility to each employee, Mr. McKinley told the committee.

THEATRICAL ADVANCE
NOTICES MUST CONTAIN
NOTHING BUT TRUTH.

Indianapolis, Ind., Feb. 10.—Theatrical companies and theatre managements will be required to live up to advance advertisements if a bill, introduced in the Indiana legislature yesterday should become a law. A penal clause, providing for a fine of from \$50 to \$100 upon conviction, is included in the bill.

LOST JOB FOR
TESTIFYING IN
PUBLIC MATTER

Columbus, Feb. 10.—State Insurance Superintendent Price Russell today discharged Deputy Superintendent Robert M. Small.

Superintendent Russell also tendered his resignation to Governor Willis, telling him he did not want to hold the position longer than the end of this week.

James B. Ruhl, of Cleveland, selected by Governor Willis as Russell's successor, informed the governor he would not take the place.

Russell removed Small for testifying before the legislative salary probe yesterday, that "Russell did not pay any attention to business," and that he "did not pay any attention to Russell."

Ruhl will not take the office because the legislative economy committee intends to cut the salary from \$6,300 to \$4,500.

AEROPLANES FLY
OVER THRACE AND
DROP EXPLOSIVES

Mitylene, via Paris, Feb. 10.—Several English and French sea planes flew over Turkish Thrace yesterday, according to a dispatch from Tenedos. Two of the machines went as far as Adrianople, dropping bombs on the forts. The Turks are said to have been unprepared for a bombardment as they did not expect allied aircraft to venture so far inland.

FIRE WAS THE CAUSE
OF A NEAR PANIC IN
EPILEPTIC HOSPITAL.

Gallipolis, O., Feb. 10.—Fire in a cottage at the Epileptic state hospital early today aroused the inmates and caused a near panic. Property loss is small as the flames were extinguished by the hospital fire department before they had spread. Spontaneous combustion in a pile of rags in the garret started the fire.

Teuton Allies Are Making Desperate Efforts To Advance

MASSED FORMATIONS.

RUSSIANS ARE RETREATING

Before Successful Austro-German Forces In Carpathians—Whispers That a Demand for Peace Will Be Made—Heavy Artillery Actions Are In Progress.

Columbus, Feb. 10.—The eastern battle front completely overshadows the western fighting line today as the center of military operations. The Teutonic allies evidently are making desperate efforts to advance, especially in the region of Galicia, to the south of Przemyśl and Lemberg, where attempts have been made to gain positions by sheer force of numbers. The general offensive movement of the Austro-German forces along the Carpathian mountains has been successful at the eastern end of the range, where the Russians are retreating into Bukovina.

London military experts are of the opinion that the Austrians must force ahead a long way in this direction before they can hope to affect the general Russian position. The vital point is Dukla Pass, where a short advance by the Russians would compel the Austrians to look anxiously to their communications. At present the battle in the region of Dukla Pass has all the aspects of a draw.

The most sanguinary fighting, according to Russian reports, took place in the Carpathian mountains, where the Germans attempted to cross Tulkolka Pass. The Teutons attacked in massed formation several ranks deep and gained several heights occupied by the Russians only to be forced back by desperate counter attacks. Both sides must have suffered terrible losses in this hand to hand battle. A German report states that heavy artillery actions are in progress in the Carpathians and that an advance is being made on Bukovina, where the important town of Wama has been occupied by the Austro-German forces.

Some whispers of a demand for peace come from the Teutonic allies in the form of reports of a socialist speech in the Prussian Diet declaring that the people want peace; and a petition is said to have been sent to Baron Burian, the Austro-Hungarian minister of foreign affairs by some Hungarian deputies demanding that steps be taken to end the war. The American steamship Wilhelm, which arrived at Falmouth last night, with a cargo of foodstuffs from New York, destined for Germany, still is anchored in Falmouth harbor, but nothing is vouchsafed by the British authorities concerning the fate of her cargo.

Falmouth, via London, Feb. 10.—The cargo of the Wilhelmina has not yet been seized, it was said today at the custom's office. NEGOTIATIONS
CONTINUE FOR
BELGIAN RELIEF

Berlin, via London, Feb. 10.—Herbert C. Hoover, chairman of the American commission for the relief of Belgium, returned last night to Brussels. The negotiations he has been conducting with the government here relative to a food supply for Belgium have not been closed, but satisfactory progress is said to have been made. He has been authorized to conduct further negotiations with the military governor of Brussels and expects a favorable outcome.

Ernest Bicknell and Henry James, Jr., representatives of the Rockefeller Foundation, left Tuesday for Vienna, on their way to Rumania, where they will negotiate for a supply of grain for the people of Poland, who are in distress. The German fund for this cause has now reached a half million marks (\$125,000).

President Wilson Intends to Call
An Extra Session of Congress If
Ship Bill Fails, Is Now Rumored

WASHINGTON, Feb. 10.—Persistent reports that President Wilson had determined on an extra session of congress beginning on March 5, if the administration ship bill failed to pass at the present session were met at the White House today with the flat statement that no extra session had been determined on and that the President hoped to pass the ship bill without one. It was reiterated, however, that should an extra session be necessary for passage of the bill, it would be called. The President talked over that phase of the situation with house leaders today and found them of varied opinions.

BATTLES BEING FOUGHT IN SNOW IN CARPATHIANS

(Associated Press Telegram) Berlin, Feb. 10.—A description of conditions under which battles are being fought in the Carpathians is contained in a dispatch to the Lokal Anzeiger from its correspondent in the mountains who says:

"Deep snow lies in the Carpathians and troop movements are confined to the valley paths. These marches are slow and arduous for battle is extremely difficult. The Russians are pressing with very considerable forces against Dukla Pass and are continuing to bring up new troops there."

"Speculations concerning far seeing plans are idle. As long as natural obstacles prescribe the conduct of the war on both sides we must be satisfied if we succeed in forcing the Russians back step by step out of the mountain borders and simultaneously repel their attempts to break through into Hungary."

CUSTOM

(Continued from Page 1.) have under the indeterminate sentence law.

Representatives of labor organizations, ministerial and church associations, and women's clubs united in support of the Bohm bill to prohibit employment of persons more than six days a week, in a public hearing before the house labor committee today. Railroad representatives spoke against the bill on the ground that emergencies often compel them to use employees seven days a week.

T. J. Donnelly of Cincinnati, secretary of the Ohio Federation of Labor declared seven days work a week in emergencies usually leads to regular employment without a day off with only six days pay. Thomas J. Farrell of Cleveland, a vice president of the Federation, declared the law a necessity to protect many men in situations of which they cannot protect themselves against employment without a day off each week.

C. A. Allen and George S. Long of Columbus, represented railroad interests in opposing the measure. H. A. Weaver of Columbus representing the Seventh Day Adventist church, urged favorable action on the bill. Rev. Luther Freeman of Columbus, speaking for the ministerial association, favored enactment of the measure "not as a religious, but as a humanitarian proposition."

The bill provides in addition to the one day's rest in seven, for closing of factories on Sunday. It exempts janitors, watchmen, bakers and livery stable employees or others caring for animals.

ANOTHER ENGLISH VESSEL FLOATED AMERICAN FLAG

(Associated Press Telegram) New York, Feb. 10.—Passengers on the Cunard line British steamer Orduna, which arrived here today from England, said that the steamer flew the American flag for nearly 24 hours on January 31, while passing through the Irish sea. The stars and stripes were hoisted on Sunday about an hour after the Orduna left Liverpool and not hauled down until early Monday morning.

The Orduna was scheduled to sail from Liverpool on Saturday, January 30, but did not depart until 10:30 o'clock the next morning.

Passengers heard that the reason for the delay was that a German submarine was hovering in the vicinity. The American flag was raised, they said, shortly after the Orduna cleared the Mersey. The steamer touched at Queenstown the same day and was flying the stars and stripes when she entered and left the harbor, they said.

The explanation which the passengers says they received from the Orduna's under officers was that the American flag had been raised for the purpose of protecting the American citizens among the 219 passengers. Passengers said it was not until Sunday morning the Irish sea, that it was hauled down.

Captain Thomas M. Taylor, commander of the Orduna refused to discuss the matter, saying he was under orders from the British admiralty not to talk.

A WATER TONG

Why is it that some people keep well all winter while others, less exposed to cold and damp, suffer with colds, grip, pleurisy, pneumonia and all the ills of the season?

This blood and debility are the causes of much sickness in winter. When the blood is thin and there is even starvation in the tissues of the body, pneumonia and other diseases are more likely to be contracted and there is a lowered resistance to disease.

Rheumatism disappears when the blood is built up and does not return if the blood is kept rich.

The after-effects of grip are never cured until the blood is built up.

Dr. Williams' Pink Pills enrich the blood and enable it to carry more oxygen to nourish the starved tissues in debility, to soothe the inflamed membranes in rheumatism, to quiet the nerves in neuritis and sciatica and to expel the lingering germs after the fever and influenza of grip have passed. All winter Dr. Williams' Pink Pills should be in every house, ready for use. You can get them now at the nearest drug store.

The third edition of the popular little book "Building Up the Blood" has just been published. Write today to the Dr. Williams Medicine Co., Schenectady, N. Y., for a free copy.

Combining Won't Rid Hair Of Dandruff

The only sure way to get rid of dandruff is to dissolve it, then you destroy it entirely. To do this, get about four ounces of ordinary liquid arvon; apply it at night when retiring; use enough to moisten the scalp and rub it in gently with the finger tips.

Do this tonight, and by morning most, if not all, of your dandruff will be gone, and three or four more applications will completely dissolve and entirely destroy every single sign and trace of it, no matter how much dandruff you may have.

You will find, too, that all itching and digging of the scalp will stop at once, and your hair will be fluffy, lustrous, glossy, silky and soft, and look and feel a hundred times better.

You can get liquid arvon at any drug store. It is inexpensive and never fails to do the work.

STATE DEPARTMENT AT WASHINGTON WILL TAKE NO ACTION NOW.

(Associated Press Telegram) Washington, Feb. 10.—The state department will take no action in the case of the Wilhelmmina, unless the ship's cargo is seized and taken before a prize court, which will determine its exact character and liability to confiscation.

It is said, at the state department, in explanation of no action at this stage that the consignees will suffer no injury if their case is good because they will be amply compensated by the British government if the cargo is held to be not subject to seizure.

EFFORTS

BEING MADE TO RECOVER THE BODIES OF TWENTY MINERS WHO WERE DROWNED

In British Columbia Workings that Were Flooded with Rapid Rush of Water.

(Associated Press Telegram) Nanaimo, B. C., Feb. 10.—Efforts to recover the bodies of twenty-one miners who lost their lives by drowning yesterday in the South Wellington mine of the Pacific Coast Coal Mines, limited, where begun here today. Big pumps, by which it is hoped to clear the mine levels of water, were to be installed by mine inspector John Newton, who took charge of the mine after the disaster. It was not expected, however, that any of the bodies will be reached for several weeks, owing to the extensive workings in the mine.

So rapid was the rush of water yesterday when a wall of the adjoining Southfield mine was shot through that few of the men had time to escape. Joseph Poy, manager of the mine, lost his own life in an attempt to get all his men to the surface. He was struck by a wall of water and presumably was crushed to death by its force. His body has not been recovered.

ENTIRE CREW OF ZEPPELIN WAS DROWNED

(Associated Press Telegram) Geneva, Feb. 10.—The entire crew of a Zeppelin which has been missing for four days was drowned when the airship fell in the North sea off the coast of Denmark during a storm. It is reported at Friedrichshafen. Details of the disaster have not been received.

It is said here that one Zeppelin and two airships of the Paravel type with accompanying German troops which have been detailed to take the field against Serbia.

Austria in experiencing great difficulties, especially in Hungary, it is reported at Innsbruck, in mobilizing the landsturm of the classes from the years 1873 to 1890, which were recently called to the colors. Women are said to be preventing the men, many of whom are grandfathers, from leaving their homes.

GERMAN SHELLS HAVE FALLEN IN SWISS VILLAGE.

(Associated Press Telegram) London, Feb. 10.—One of the nearest German Zeppelin airships which has been missing four days is reported at Friedrichshafen, to have been lost in the North sea off the coast of Denmark. The Express is informed by a German correspondent.

The military authorities of Switzerland are investigating the circumstances under which German shells are reported to have fallen in the Swiss village of Lenzburg. The Express also states.

RUSSIANS ARE NOW MARCHING INTO HUNGARY

(Associated Press Telegram) Geneva, Feb. 10.—The Russians are marching into Hungary by the valleys of the Theiss and Ung rivers, according to advices received here. Taking the offensive at Koros-neve, they are said to have inflicted severe losses on the Austrians and advanced five miles in the direction of Budapest in the Lyutsk valley. The Russians progressed southward as far as Turja Remute and Poroseny on the railroad from Turja to Ungvar, capturing two batteries embedded in the mud in the Polonino Rana mountain.

U. S. SENATE

(Continued from Page 1.) as he made his early morning appearance.

"It is yesterday," responded Senator Lee, who had spent the night in the presiding officer's chair.

"It will soon be next week," volunteered Senator Robinson, who at that time had succeeded Senator Lee, of Maryland, as the sole Democrat on the floor.

Senator Sherman at 9 a. m. had completed seven hours on the floor and gave no evidence of yielding.

At 10 o'clock this morning the senate had been in continuous session 48 hours—two days and two nights. Senator Townsend, Republican, had relieved Senator Sherman, who had been talking since 10 p. m. in the assault on the shipping bill from the Republican side.

While Mr. Townsend spoke, fresh forces on both sides of the chamber relieved the tired and heavy-eyed senators who had begun to break under the physical strain of the fight. Senator Penrose was compelled last night to go to his hotel under care of a physician.

Others were compelled by physical exhaustion to retire to their homes. But efforts of senatorial leaders were made to rush them back on short notice should their votes be needed.

Twice during the night Republicans and allied Democrats of the opposition vainly sought to adjourn the senate but administration lines held firmly. Majority Leader Kern asserted early in the day that here would be no letup until the pending question at least could be put to a vote. The pending question still remains on a motion of Senator Fletcher to recommend the bill with instructions for its immediate amendment and return to the senate.

Meanwhile means for forcing the shipping bill through were being discussed by President Wilson at early morning conferences today with Majority Leader Underwood of the house and Representative Kitchin, who is to succeed Mr. Underwood as house leader after March 4.

The President's suggestion to the house leaders was that the senate shipping bill might be attached as an amendment to the Weeks bill, already passed by the senate, providing for the use of naval vessels in carrying mails and freight. The Weeks bill is now before the house naval affairs committee.

The President, it is understood, had not finally determined to press this idea, but it is said to have support of a number of Republicans in the senate.

Mr. Kitchin went to the White House primarily to take up with the President the views of members of the ways and means committee that there should be no extra session of congress.

An alternative suggestion taken up by the president with house leaders, was that Senator Gore's substitute shipping bill be taken up immediately in the house. It was the president's idea that passage of a shipping bill through the house would give it prestige in the senate. Some of those who conferred with the president thought that course would be finally decided on.

Meanwhile as debate proceeded in the senate, Senator Townsend aroused the Democrats with an assertion that Kuhn, Loeb and company, New York bankers were interested in the passage of the bill.

"Upon what information does the senator assert that Kuhn, Loeb and company are interested in this bill or that they are exerting influence to have the bill passed?" demanded Senator Lewis, Democrat.

"I know that a common rumor is in circulation to that effect," retorted Senator Townsend. "I know that a member of Kuhn, Loeb and company is a member of the federal reserve board. I know that a brother of that member is interested in the shipping business and know that it will require large sums of money for the government to carry out this project. I think I know that the government is going to rely upon its favorite bank, Kuhn, Loeb and company, has increased its deposits and banks not so friendly to the administration have decreased proportionately."

"Does not the senator know," demanded Senator Burton, "that Paul M. Warburg resigned from Kuhn, Loeb and company when he went to the federal reserve board and proclaimed his action publicly?"

Senator Burton suggested Mr. Warburg had transferred his inter-

OLD-TIME COLD CURE—DRINK TEA!

Get a small package of Hamburg Brest Tea, or as the German folks call it, "Hamburg Brust Tee," at any pharmacy. Take a tablespoonful of the tea, put a cup of boiling water upon it, pour through a sieve and drink a teaspoon full at any time. ests in Kuhn, Loeb and company to a member of his family.

"If it is true," said Senator Bristow, "that Mr. Warburg's interests in Kuhn, Loeb and company have been turned over to a member of his family, and if his brother is a supervising head of a great transatlantic steamship line which now has twenty-four ships interned in American ports, and if Kuhn, Loeb and company handle the securities of this steamship line, isn't it reasonable to suppose that if this bill passes, the United States will be urged to buy these ships."

When Senator Townsend concluded, Senator Gallinger moved to lay aside the ship bill and take up the water power bill. That proposal, however, was tabled 49 to 39. Senators Bankhead, Hardwick and Verdmann, of the Democratic insurgents, joined the Democratic side on the vote. Senator LaFollette, Republican, voted with the Republicans to take up the water power bill.

The loss of Senator Norris' vote showed a threatened break in the administration lines. The Nebraska senator disclosed that he was undecided whether to aid the effort to force the measure through.

The loss of Senator Norris' vote would once more place the administration forces on the defensive. By voting with the Republicans, he would give the opponents of the ship bill a majority. With his support the administration forces could get a tie vote which would be decided by the vice president's ballot.

Frederick Mors Says He Methodically Killed Inmates—He is Now in Bellevue Hospital.

(Associated Press Telegram)

New York, Feb. 10.—The board of trustees of the German Odd Fellows home in Yonkers, where Frederick Mors, now in the psychopathic ward in Bellevue hospital has confessed that he methodically killed eight aged inmates, has decided to appoint a special committee to co-operate with the authorities in making a searching inquiry of the startling allegations.

Frank J. Fuchs, the president of the German Odd Fellows home association stated that he had personally requested District Attorney Martin of the Bronx to have one of the bodies of the alleged poison victims examined. The district attorney told him, he said, that he would do this if the evidence justified such a step.

AS McDERMOTT BILL AFFECTS THIS COUNTY

In the appointive districts under the McDermott bill to decentralize the liquor license system, Licking county is joined with Franklin, Delaware, Muskingum, Fairfield, Pickaway, Hocking, Perry, Morgan and Athens.

In the licensing district, Licking is joined with Muskingum, each county to have one licensing commissioner, one of the two being a Democrat.

The proposed bill will reduce the number of retail places by including wholesale licenses within the quota of one license for every 500 inhabitants and also that it cuts off the retailer from any wholesale business. Again it drives the manufacturer and brewer out of trade with the consumer.

Located in the City.

Among other anecdotes of university life, Dean Hole tells of an occasion when there was some doubt as to the locality of a city mentioned in a Greek text, and the lecturer addressed a youth who had just come up from the famous Shrewsbury school. "Now, Mr. Bentley, you are a pupil of our great geographer, Dr. Butler, the Atlas of our age, who carries the world not on his shoulders, but in his head, and you can probably enlighten us as to the position of this ancient town." "I believe, sir," was the prompt reply, "that modern travelers are of the opinion that the city ought to be placed about ten miles to the southeast of the spot which it now occupies on our map." After receiving respectful thanks for the information the informant told Dean Hole as they left the lecture room that he had never heard of the venerable city before, but that for the honor of Shrewsbury and the reputation of Dr. Butler he felt himself bound to say something.

Half a Million Matches a Minute

It will take just about a minute to read this advertisement.

While you are reading it, nearly half a million matches will have been struck, burnt and cast aside, in this country alone.

That gives you an idea of the extent to which matches enter into the everyday life of the American people.

Of the hundreds of different brands of matches made and sold in the United States, there is but one best.

It is called the Safe Home Match. It is made by the Diamond Match

Company. It is a safe match for the home.

Safe Home Matches light easily, but not too easily. They are safe—safe and sure.

The sticks are extra long and extra strong. Safety again!

They are non-poisonous. Safety once more.

They cost no more than other brands of matches. As a matter of fact, they cost less, because every Safe Home Match is a match.

ALL READY FOR BIG MINSTREL AT THE AUDITORIUM

The final rehearsal for the big Elk minstrel will be held this evening at 7:30 o'clock with the full orchestra present. Everything is in readiness for the big show and the curtain will rise tomorrow at 8:15 o'clock prompt on fifty black face singers.

Mr. H. D. Hale will act as master of ceremonies and six comedians will furnish the fun, Messrs. Gleibaut, Cooper, Jones, Liscomb, Dolan and Webber. Ballads will be sung by Messrs. Clyde Reasoner, Frank Ewald, Val Crider and Harvey Moore. An orchestra of twelve pieces will furnish the music.

The olio will open with Harry Hale Haynes, monologist, followed by P. J. Glancy, Nelson Metz and James Clayton in a movie picture stunt. Next comes a brass quartette composed of Fred Abbott, Ed Lyons, Oie Riggs and George Richer. Donald Kinsane will be heard in a violin solo.

Walter F. Brown and Ned Putnam are next on the program and will do several original and fancy dances. These young men have an act that will be a revelation and they are the acme of grace.

Moore, Sharr & Hubbs in a sketch entitled "A Night at the Virginia Hotel at Columbus," will please the audience immensely. Harvey Moore is a great favorite with Newark theatre goers and his splendid voice has been heard by nearly every man, woman and child in Newark. His partners in the act are two of the capital city's most noted musicians. They are bound to go big.

"The Wedding of Little Snowball" is a one act farce in which many characters, singers and dancers are heard. Allan Colman enacts the role of "Smoky Hobbs," the groom, and Warner "Cupid" Devore of "Little Snowball," the blushing bride. William Creeden and Beryl Shaw will also be seen in an excellent specialty.

Watch for the big parade tomorrow noon. Col. Robert Dold will have his famous Buckeye band in line.

There are still many good seats at the box office. Call there for yours before they are all disposed of.

Fifth Bulletin Is Issued By Asso. Charities

I was in Columbus recently and found the following clipping from the Ohio State Journal. I pass it on to show what they say of Associated Charities in Columbus. This is our aim in Newark. Will you help your directors to succeed?

When an applicant for charity appeals to you, what do you say?

He puts you right up against one of the big problems of city life.

If you refuse him you are haunted by the thought that maybe he is hungry.

If you give him the money you may have, through his misuse of it, you have helped to break him down instead of helped to lift him up.

Give your donation to the Associated Charities and you'll know it will go to some family that is genuinely poor. Every case is investigated.

It is not true that deserving people are kept waiting in misery while the Associated Charities make a long-drawn-out investigation. Our inquiries are made swiftly, and where relief is really needed it comes swiftly.

The salaries and running expenses of the organization are small considering the tremendous work it does. And it could do no more on its present running expense if it had more money with which to do it.

The Associated Charities is conducted by capable, informed people. It needs your contributions. It will spend it in the way to accomplish the most good possible.—State Journal, Dec. 15, 1914.

FAIRMOUNT CHURCH SPECIAL MEETINGS.

The meetings have been in progress for nearly three weeks and are increasing in attendance and interest rapidly. The field is a wide one, as nearly half of the audience are persons who have not as yet confessed their faith. The number of young men in attendance would gladden the heart of any city pastor. We are happy to say that they are gradually being reached.

Thursday night, Rev. Robt. Yost, formerly of this church, who is now visiting his old home, will speak.

This is an exceptional privilege, as Mr. Yost is one of the most eloquent pastors of the Presbyterian church. A large audience should greet him. Meetings commence about a quarter past seven.

WITH THE FRENCH WOUNDED

The Woman's Sacrifice.

Paris, Feb. 10, 8:30 P. M.—Away from the battlefield on seas war-torn, the heroism of women who are on duty day and night. There is devotion, self-sacrifice, suffering, patriotism—qualities which only a great war and its terrible consequences can inspire to the highest development. The women everywhere are helping and everywhere one sees self-sacrifice and devotion to country.

The women of the United States do not know how fortunate they are. Here there are plenty of women who suffer in silence, whose strength is out of proportion to their ambition. Their hands are tied by some chronic disease common to womanhood, that weak back, accompanied by pain here or there, extreme nervousness, sleeplessness, maybe fainting spells or spasms, are all signals of distress for women. She may be growing from girlhood into womanhood, and later suffering from that change which leaves so many wrecks of women. At any or all of these periods of a woman's life she should take a tonic and nerve, prescribed for just such cases by a physician of vast experience in the diseases of women.

Dr. Pierce's Favorite Prescription has successfully treated more cases the past fifty years than any other known remedy. When you feel dull, headachy, backache, dizzy, or perhaps hot flashes, there is nothing you can accomplish, nothing you can enjoy. You can find permanent relief in Dr. Pierce's Favorite Prescription. It is sold by medicine dealers, or trial box by mail from Dr. Pierce, Invalids' Hotel, Buffalo, N. Y., on receipt of 50-cents, or one dollar for large box.—Adv.

THIN PEOPLE CAN INCREASE WEIGHT

Thin men and women who would like to increase their weight with 10 or 15 pounds of healthy "stay there" fat should try eating a little Sargol with their meals for a while and note results. Here is a good test worth trying. First weigh yourself and measure yourself. Then take Sargol—one tablet with every meal—for two weeks. Then weigh and measure again. It isn't a question of how you look or feel or what your friends say and think. The scales and tape measure will tell their own story, and most any thin man or woman can easily add from five to eight pounds in the first fourteen days by following this simple direction. And best of all, the new flesh stays put.

Sargol does not of itself make fat, but mixing with your food, it turns the fats, sugars and starches of what you have eaten into rich, ripe fat producing nourishment for the tissues and blood—prepares it in an easily assimilated form which the blood can readily accept. All this nourishment now passes from your body as waste. But Sargol stops the waste and does it quickly and makes the fat producing contents of the very same meals you are eating now develop pounds and pounds of healthy flesh between your skin and bones. Sargol is safe, pleasant, efficient and inexpensive. All leading druggists in Newark and vicinity sell it in large boxes—forty tablets to a package—on a guarantee of weight increase or money back.

BREAD PRICE IS INCREASED TO SIX CENTS

(Associated Press Telegram.) New York, Feb. 10.—The price of bread was increased today from five to six cents throughout New York City and vicinity. Rolls also went up from 10 to 12 cents a dozen, and pie and cake in proportion. A few bakers have been charging six cents for several days and yesterday others increased the price but it was not until today the last of the large companies joined the movement.

With the higher price established, it became known today that Governor Whitman is keenly interested and is in close touch with the situation. He is being kept informed by Alfred L. Becker, deputy attorney general, who has been in this city for several days investigating the causes for the increase.

MEETING TO CONSIDER THE PRICE OF BREAD.

(Associated Press Telegram.) Spartanburg, S. C., Feb. 10.—The price of bread will be considered at a meeting in Atlanta next Wednesday, when arrangements will be made for the annual convention of the Southeastern Master Bakers association, according to announcement here of President August Gelfuss. The states of North Carolina, South Carolina, Georgia, Florida, Alabama and Tennessee are included in the organization.

Bakeries in several cities in North Carolina and South Carolina already have advanced the price to six cents a loaf because of the rise in wheat values. Mr. Gelfuss said he believed other bakeries would have to take similar action soon.

CHALMERS PANCOAST WON FIRST PRIZE IN CHICAGO PAPER'S CONTEST.

Chalmers Pancoast, formerly of this city, but now on the staff of the Chicago Tribune, is meeting with well deserved success as a writer. Mr. Pancoast has just been awarded first prize for his contribution in the Tribune's contest for the best article on the influence and scope of the Tribune and it is entitled "The Power of the Chicago Tribune." The article is arranged as a photoplay scenario, in which the leading character is a "new-food-product-salesman" who prefatory to introducing his line wishes to advertise, and he consults people in various stations of life as to the best medium of advertising, all invariably name the Tribune and give their reason. It is a cleverly written business talk, and also bears the stamp of originality.

For The Thin and Scrawny

Samose Will Make You Plump and Rosy, Says W. A. Erman & Son.

If you are getting thin you are sick, although you may not know it. If you are losing weight steadily there is something wrong that needs looking after. If you have always been thin it doesn't follow that you are sick, but you may not be healthy. You cannot be strong if you are thin. Try then to be healthy and plump; it is not difficult if you know how.

The only way to increase the weight and gain health and flesh is by using Samose, the standard flesh-forming food and tissue builder. It mingles with the food you eat and is assimilated so that all the flesh forming and tissue building elements of the food are retained in the system. This explains the great value of Samose.

W. A. Erman & Son sells every package on a genuine guarantee to refund the money if it does not do all that is claimed for it.

Theatres

"Potash and Perlmutter." Pinocchio and politics, love and law, strikes and styles, go to make up the story of "Potash and Perlmutter," the three-act comedy that A. H. Woods will present at the Auditorium Saturday night direct from its second year in New York City.

"Potash and Perlmutter," a dramatization of the characters and incidents in Montague Glass' stories in the Saturday Evening Post, scored the greatest triumph in the history of comedy—for it is a comedy in spite of the tremendous heart-interest that gives it its chief hold on the theater-going public. Abe Potash and Morris Perlmutter are today the two most popular characters of modern fiction—if indeed they may be called fiction characters now that they have been among us in the flesh and blood for so long. They are loved for their weaknesses as well as their virtues. Their almost incessant quarrels are uproariously mirthful while their tenderness, their spirit of self-sacrifice, their intense and grief are heart-touching. They are the most thoroughly human heroes of the stage and that is why they were welcomed as readily in London as in New York and why they are sure to be as welcome in Berlin, Vienna, Paris and the other capitals of Europe where they are to make their appearance during this season.

Manager A. H. Woods sends "Potash and Perlmutter" to us with a carefully selected company.

The old home apple butter

—Let's have this rare delight again

How temptingly good it looked as mother poured it, rich and golden-brown, into spotless crocks and jars! And how joyously you helped her store it on the pantry shelves for long winter months to come.

And do you remember how interested you were in the making of it—the art she was master of?

And when it was done—how good it was! Will you ever forget the first helping thickly spread over a slice of brown-crust bread?

How often have you just "hankered" for the familiar old home taste? How many times have modern apple butters disappointed you when you sought it? The minute you taste—

WILL MAKE EFFORT TO BUILD UP THE U. S. W. VETERANS

W. G. Thrapp, newly-elected commander of the United Spanish War Veterans, is leading a movement looking towards the rejuvenation of the local camp, and a determined effort will be made to build up the membership of the order.

In an interview Wednesday, Mr. Thrapp stated that Newark Camp No. 23 has remained active through the last several years through the zeal of a dozen or more members who are faithful in their attendance at these meetings.

"At tonight's meeting," said Mr. Thrapp, "two applications for membership will be acted upon. The membership of this camp should be at least 200. For service in the Spanish War, a company of infantry and a battery of artillery were recruited in Newark and a company of infantry from Hebron. Soldiers in these units are eligible to membership in the local camp and every one of them living here should become a member."

Besides the survivors of these companies and battery, there are others who served from other parts of the state and country who should join the U. S. W. V.

"A few can and do hold together and keep the camp active but it would be much more pleasant if every Spanish War man would join."

FORMER NEWARK BOY TAKES JOB IN MINNEAPOLIS

Rupert F. Anderson, formerly of this city, being at one time connected with The Wehrle Company, has resigned his position at Fremont and has gone to Minneapolis where he has taken a new position. The Fremont Messenger says:

"Rupert F. Anderson of 128 Wilson Ave., who has been connected with the Lincoln Stove Company in the capacity of Business Manager for the past two years, has accepted a position as manager of the Heating Department of the M. W. Savage Factories Company of Minneapolis, Minn."

"Mr. Anderson came to Fremont about two years ago from Newark, Ohio, where he was formerly connected with one of the largest stove plants in the country. While Mr. Anderson is still a young man, by conscientious effort and close application to the details of the stove business, he has advanced himself to a point where in accepting the position with the Savage Company, which is one of America's largest stove manufacturers, he will rank with the leading stove men of the country. He carries with him the very best wishes for his success, not only of his present employers but of his many friends in Fremont as well."

"He will assume charge on or about February 15th."

Landlordism.

Landlordism is a widespread institution in the United States. The last census shows that more than half of the homes in the country are rented outright and that only 29 per cent are owned free from mortgage. In the fifty cities of more than 100,000 inhabitants, 74 per cent of homes are rented and only 13 per cent are owned free of incumbrance. In New York City more than 88 per cent of homes are rented and only three and a half per cent owned free. In Chicago 73.8 are rented and only 12 per cent owned free. In Philadelphia conditions are practically the same. In the Eighteenth Ward of Chicago there are 4,905 homes and only 105 of them owned free. In New York City, in the Eight Assembly District of Manhattan, there are but six homes owned free, while 11,962 are rented. In the year 1880, 25 per cent of the farms were operated by tenants. In 1910 the percentage had increased to 37 per cent. Only 42 per cent of farms worked by their nominal owners were free of incumbrance. In seven States a majority of the farms are worked by tenants. These are Alabama, Arkansas, Georgia, Mississippi, Oklahoma, South Carolina and Texas. These contain 29 per cent of all farms in the union. In twenty-four other States rented and mortgaged farms combined exceed those owned free from mortgage. In only seventeen States are a majority of farms owned free, and these contain but 22 per cent of all farms in the union. They are, Arizona, Colorado, Florida, Kentucky, Maine, Massachusetts, Montana, Nevada, New Hampshire, New Mexico, Oregon, Pennsylvania, Rhode Island, Utah, Virginia, Washington and West Virginia.

Spirit of the Press

Monte Carlo Deserted. War has destroyed the revenues of the people of Monaco. Fevered faces no longer are bent over the tables. The stakes are now life and death instead of mere gold. For people paupered through no fault of their own there is sympathy usually—but there is none for those who control the destinies of Monaco. The principality was supported by the annual tribute of \$340,000 laid on the proprietors of the Casino. There are 22,000 inhabitants of Monaco, and the tourists lured there by the fascinations of chance, were the source of their income—a parasitic principality.—Detroit Free Press.

Four Presidents. The organ of the California Progressives is inspired by the dream of four presidents on the reviewing stand at San Francisco in connection with the exposition, the four being the president, the two living ex-presidents and "the only known future president"—Governor Johnson. In the West's own language, isn't this crowding the mourners a bit?—New York Post.

Recalls Gorman. The late Senator Gorman, whose name is forever associated with Grover Cleveland's charge of "perfidy and dishonor" because of his betrayal of the Democratic party on another occasion, had, particularly in his later years, a voice and manner when speaking in the senate that to put it mildly, gave anything but an impression of frankness and sincerity. Gorman in those days could, without makeup, have played in melodrama the part of the unholly schemer. It is not fortunate for Senator Clarke, of Arkansas, now engaged in injuring the party, that his marked idiosyncrasies of voice and manner bring Gorman back to mind.—Springfield Republican.

The Last Resort.

(New York World.) The question is asked almost daily, Why do Democrats who as a rule have opposed the extension of governmental activities, now favor publicly owned ship? If such inquirers seeking information in good faith, they must be told that Democrats, while opposing Government ownership in principle and practice, have not failed to embrace it in preference to subsidy and monopoly. To mention only one recent illustration, there is the parcel post. Efforts to enforce some degree of accountability upon the express companies had failed. They charged exorbitant rates, in many cases collecting at both ends of the route, and by their activity in politics they regularly defeated reform. To kill a wrong that had become unbearable the parcel post was established. The American people have waited fifty years for private enterprise to enter the deep-sea carrying trade. During all that time they have been told that a merchant marine could be had only by subsidy. Refusing to

Bank Underwriting. Underwriting is a little outside the line of commercial banks, and the comptroller of the currency has called on the directors of six banks in New York to reimburse their institutions for an aggregate of \$2,000,000 lost in underwriting enterprises. The directors of one of them have refunded \$750,000. Underwriting is a perfectly legitimate financial transaction for an individual capitalist or a trust company organized for that purpose. It is doubtful if banks doing a general commercial business ought to assume the risks involved. The law does not forbid it, but the law also does not authorize it.—Philadelphia Record.

Prison Industries. Quite as interesting as any other one thing which Warden Osborne has done at Sing Sing is his new proposal to enlist the labor unions in a plan to reorganize the prison industries for educational purposes. The governor is said to approve, and the promise of officials of the American Federation of labor to co-operate is highly significant. The conflict of free and prison labor has long been a vexed question.—Springfield Republican.

Talk On Thrift

BY T. D. MAC GREGOR
"There is no surer evidence of the prosperity of a community than when its savings banks show healthy and growing deposits."—Burlington Hawkeye.
Following are half a dozen outstanding advantages of using a savings bank or the savings department of a commercial bank or trust company.
1. Safety. Savings banks are the safest financial institutions in this country. Recent statistics showed the total liabilities of failed savings banks in proportion to the aggregate deposits of all such banks to be only about six ten-thousandths of one per cent. (0.0006 per cent.). Deduction for the amount realized on the substantial assets of those few unfortunate institutions still further reduces the already infinitesimal loss to depositors.
2. Ability to deposit or withdraw any amount at any time. Some banks have a minimum for deposit, although it is usually a low one—5 cents, 25 cents, 50 cents or a dollar, as the case may be. In different States there is a different maximum for savings deposits, ranging from \$1,000 to \$3,000 or \$5,000. Ordinarily money can be withdrawn without any notice whatever. In times of panic or possible panic, however, a 30 or 60-day rule may be enforced.
3. Regular Income. There are few, if any, other investments where it is possible to put in small, odd amounts at any time and have your money begin to earn interest promptly, as it does in a savings account. Savings bank interest is something you can depend upon.
4. Compound Interest. The investor in bonds or stocks must collect his interest or dividends, and if he does not use the money, must attend personally to investing it. Interest allowed by the bank at the end of a given period, if not withdrawn, is placed to the depositor's credit, and itself draws interest from that time on, thus automatically becoming a part of the deposit. That means a constant increase in the amount at interest, and in the interest payments.
5. Freedom from Tax. In most States savings bank deposits are free from taxation by State or local authorities.
6. The Habit of Saving. Last, but by no means least, of the advantages of a savings account is what might be called the reflex influence on the depositor himself. It firmly fixes in him a valuable habit of saving, which will be a lifelong benefit to him.

A Little Fun

A Sad Case. The worried countenance of the bridegroom disturbed the best man. Tiptoeing up the aisle, he whispered: "What's the matter, Joe? Hae ye lost the ring?"
"No," blurted out the unhappy Joe, "the ring's safe eno'. But, mon, I've lost ma enthusiasm."—Youth's Companion.

THE GROUCHY MERCHANT.
The grouchy merchant whose head's always sore, is sure the destroyer of peace in his store. "I pay out good wages, the best in the town, and always," he rages, "my salesmen fall down. They come recommended as man hard to beat, but ere a month's ended they're read on their feet." With rantings and rantings he ceases his mind, but to his own failings, he's stupidly blind. He always is growling and roasting the clerks; his gloom and his scowling affect the whole works. No clerks can keep humping, with bows, smiles and becks, if some one is jumping all day on their necks. "It's no use to hustle and play a good game," they say, "the old cuss'll be mad just the same." Grown weary of nagging, they fret and they sulk, their spirits are sagging, they're grief in the bulk. The dealer and seller should look for a chance to boost the young fellow who's keen to advance. TEAM OF TURTLES.

Rex Bassler, a youngster of six, living at Darien, Wisconsin, U. S. A., has probably the strangest driving team in the world—a team of eight snapping turtles, from fifty to seventy-five years old, weighing about thirty pounds each. Rex has tamed these creatures, which are naturally savage, and they draw him in his express wagon like ponies driven by other children, although they are not likely to shatter any speed records. The youngster learned that turtles could be tamed while watching his father catching turtles for the New York and Philadelphia markets. Persuading his father to give him some of the largest, he finally grouped them for a driving team, and they seem to enjoy the sport as much as Rex likes to ride behind them. These turtles are so old that their backs are covered with moss. The team is kept in line by means of a wire harness, which is run through holes drilled in the edges of the thick shells.—February Strand.

In Milady's Boudoir

BY GWEN SEARS.

WOMENLY WOMEN ADMIRER.

There is nothing more truly lovable than the woman who is genuinely womanly. There is a charm in her femininity that no acquired grace can lend. More especially in this age is the genuinely womanly woman admired, for girls seem to have a desire to be so manly, so loud, not only in mannerism, but in talk and dress, many choosing the sports of men in preference to the pastimes of women.

The majority of men, I think, really prefer the quiet lady-like girl with a soft, sweet voice, an affectionate disposition, and the girl who knows how to be a little lady, not only in her manners, but talk.

Loud talk and slang words are not for the lady-like girl, and although some people tolerate loose manners some girls have, they do not really admire it.

Far more to be appreciated is the girl who openly vows that she likes nice clothes and is given over to many little feminine vanities, than the one who dresses so manly, and who imitates the walk of her brother though she may be able to discuss the most abstruse subjects with an air of confident knowledge that her elders cannot even boast.

To be a lady-like woman does not mean that one need adopt fads and follies indiscriminately. The woman who can make her home bright and attractive, who can be the model hostess as well as wife, and mother, who is well-informed and able to talk intelligently, yet who is wise enough to realize that woman's privileges are preferable to woman's rights, is the girl or woman we must all admire, and the one fit to be taken to an honorable man's heart.

PIMPLY? WELL, DON'T BE!

People Notice It. Drive Them Off With Dr. Edwards' Olive Tablets

A pimply face will not embarrass you much longer. You get a package of Dr. Edwards' Olive Tablets. The skin should begin to clear after you have taken the tablets a few nights. Cleanse the blood, the bowels and the liver with Olive Tablets.

Dr. Edwards' Olive Tablets are the successful substitute for calomel, which never cures skin diseases or pain after taking them.

Dr. Edwards' Olive Tablets do that which calomel does, and just as effectively, but their action is gentle and safe instead of severe and irritating.

No one who takes Olive Tablets is ever cured with "a dark brown taste," a bad breath, a dull, listless, "no good" feeling, constipation, torpid liver, bad disposition or pimply face.

Dr. Edwards' Olive Tablets are a purely vegetable compound mixed with olive oil. You will know them by their olive color. Dr. Edwards spent years among patients afflicted with liver and bowel complaints and Olive Tablets are the immensely effective result.

Take one or two tablets for a week. See how much better you feel and look. 10c and 25c per box. All druggists. The Olive Tablet Company, Columbus, O.

CARPENTERS ENJOY FINE BANQUET ON TUESDAY EVENING

The Carpenters' Union No. 136 of Newark, was banqueted by our entertainment committee in the Red Men's hall, Tuesday evening, there being 250 brothers and their wives and families present. All enjoyed themselves both spiritually and physically. Just before the banquet was served, we had the pleasure to listen to a most eloquent speech, delivered by Brother Conley of Union No. 136, being full of unison to the him. He told some of the needful things in true unionism equal to the union of the United States a show we helped our fellowman in all Brother Conley is a live wire.

After the inner man was served, all enjoyed a good and sociable time, with music by Miss Baker of Roe avenue. Many expressed themselves by wishing that the Carpenters' entertainment committee entertain the brothers and their families oftener in the future.

The Carpenters will meet at the Red Men's hall at 7 o'clock sharp Wednesday, February 10, and march in a body to the High School Auditorium to listen to the discussion of the light plant question.

Mr. Richard Evans, who has been suffering with La Grippe and been confined to his room is slowly improving.

Mr. and Mrs. Clark Cochran of Newark, Mr. and Mrs. Perry Comford of Granville were delightfully entertained at Mr. and Mrs. Frank Messengers, Friday. A delicious dinner was served and the afternoon was spent in sleigh riding, music and jolly stories.

The Five Point Literary was largely attended Friday night.

Flavia Comiford met with a very painful accident Monday while on his way to Granville schools. His pony slipped and fell and as Flavia had his feet in the stirrups he could not jump, and the pony fell on him dragging him quite away. At this writing we do not know if any bones are broken, but he is suffering with a badly sprained foot and ankle.

Mr. and Mrs. Frank Messenger and son Lee, Mrs. Dick Evans and sons, Milo and Danny, spent Sunday at Cedar View.

Miss Myrtle Biggs of Hebron is visiting her grandmother, Mrs. Woolard.

Ross Ashbrook and Homer Comiford were trying their new skates on Sunday and they report they want another pair (to sit on).

We are sorry to hear Miss Lulu Howard lost her watch Monday morning and hope whoever finds it will return it to her.

COASTING ACCIDENT ON N. WILLIAMS ST. INJURES SIX PEOPLE

A coasting accident occurred on the North Williams street hill last evening in which a half dozen people were injured and badly shaken up but not seriously hurt.

There were possibly fifty or sixty persons watching the coasters from the turn at the bottom of the hill. Suddenly a sled on which were seated three men and three women shot off the side of the hill down the embankment, at the foot of which were a number of large stones to keep the waters from washing away the fill at that point.

The sled struck one of these stones and one of the women was thrown against it but fortunately the sled had been slackened and the woman is only slightly cut about the head. One of the men had his leg mangled and could not walk for some time. Several of the others were slightly scratched. The women of the sled also lost some jewelry a part of which was recovered. The accident was caused by the guide losing control.

"DICK" DOLD CELEBRATES HIS 58th BIRTHDAY

On Tuesday evening the German Maennerchor of this city pleasantly surprised Mr. Richard Dold at his home in North Fourth street, the occasion being his fifty-eighth birthday anniversary. "Dick" as he is better known by his friends says the surprise was complete as he had been telling his friends he was but forty years of age. He gracefully acknowledged his mistake and proceeded to entertain his guests. Old songs of the Fatherland were sung, after which they were invited into the dining room where they were greeted by an appetizing lunch prepared by Mrs. Dold and such as can only be prepared by a German woman. At a late hour all departed wishing Mr. Dold many happy returns of the day.

Why "No Coffee" For Children?

Many parents who drink coffee would not allow their children to touch it.

The 2½ grains of the drug, caffeine, in the average cup of coffee, is far more injurious to the susceptible nature of a child than to an adult, but, just as constant dripping will wear away stone, so will the repeated doses of caffeine undermine the strongest constitution.

Parents who would protect their own health as they do that of their children, will see the reason for quitting coffee and using

POSTUM

This pure food-drink contains nothing that is harmful or injurious, but is, on the contrary, healthful and invigorating.

Postum is easy to make; has a delightful snappy flavor, very much like Old Gov't Java; and is good for both children and adults.

Postum is sold in two forms—Regular Postum, which requires boiling, 15c and 25c packages; Instant Postum, which is soluble in hot water—made instantly in the cup, 30c and 50c tins.

Both kinds are equally delicious, and the cost per cup about the same.

WHAT \$10 DID FOR THIS WOMAN

The Price She Paid for Lydia E. Pinkham's Vegetable Compound Which Brought Good Health.

Danville, Va.—"I have only spent ten dollars on your medicine and I feel so much better than I did when the doctor was treating me. I don't suffer any bearing down pains at all now and I sleep well. I cannot say enough for Lydia E. Pinkham's Vegetable Compound and Liver Pills as they have done so much for me. I am enjoying good health now and owe it all to your remedies. I take pleasure in telling my friends and neighbors about them."—Mrs. MATTIE HALE, 501 Colquhoun Street, Danville, Va.

No woman suffering from any form of female troubles should lose hope until she has given Lydia E. Pinkham's Vegetable Compound a fair trial.

This famous remedy, the medicinal ingredients of which are derived from native roots and herbs, has for forty years proved to be a most valuable tonic and invigorator of the female organism. Women everywhere bear willing testimony to the wonderful virtue of Lydia E. Pinkham's Vegetable Compound.

If you have the slightest doubt that Lydia E. Pinkham's Vegetable Compound will help you, write to Lydia E. Pinkham Medicine Co. (confidential) Lynn, Mass., for advice. Your letter will be opened, read and answered by a woman, and held in strict confidence.

planned to parade down Michigan
avenue in straw hats and summer
suits in defiance of the icy wind
sweeping from Lake Michigan today
to display the newest creation of
spring and summer wear for men.

More than a thousand tailors are at-
tending the convention.

Men's styles for the coming season
will be distinctly anti-militaristic as
possible, it was announced. There
will be no military shoulders or
collar effects.

The newest features will be the
tendency toward slender and high
waisted effects. The coats will be
slightly longer, the waist will be
high and close fitting, the lapels
broad and high and the shoulders
narrow. Very little if any padding,
stuffing or stiffening will be used.

The trousers will continue narrow
and slightly shorter. Cuffs will be
worn on all trousers except evening
clothes.

YOUR SICK CHILD
IS CONSTIPATED!
LOOK AT TONGUE

No matter what ails your child, a
gentle, thorough laxative should al-
ways be the first treatment given.

If your little one is out-of-sorts,
half-sick, isn't resting, eating and
acting naturally—look, Mother! see
if tongue is coated. This is a sure
sign that it's little stomach, liver
and bowels are clogged with waste.

When cross, irritable, feverish,
stomach sour, breath bad or has
stomach-ache, diarrhea, sore throat,
full of cold, give a teaspoonful of
"California Syrup of Figs" and in a
few hours all the constipated poison,
undigested food and sour bile gently
moves out of its little bowels without
griping, and you have a well, play-
ful child again.

Mothers can rest easy after giving
this harmless "fruit laxative," be-
cause it never fails to cleanse the
little one's liver and bowels and
sweeten the stomach and they de-
arly love its pleasant taste. Full di-
rections for babies, children of all
ages and for grown-ups printed on
each bottle.

Beware of counterfeit fig syrups.
Ask your druggist for a 50-cent bot-
tle of "California Syrup of Figs,"
then see that it is made by the "Cal-
ifornia Fig Syrup Company."

AN OLD RECIPE
TO DARKEN HAIR

Common garden Sage and Sulphur
makes streaked, faded or gray
hair dark and glossy at once.

Almost everyone knows that Sage
Tea and Sulphur, properly com-
pounded, brings back the natural
color and lustre to the hair when
faded, streaked or gray; also ends
dandruff, itching scalp and stops fall-
ing hair. Years ago the only way
to get this mixture was to make it
at home, which is messy and trouble-
some.

Nowadays we simply ask at any
drug store for "Weyth's Sage and
Sulphur Hair Remedy." You will
get a large bottle for about 50 cents.

Everybody uses this old, famous re-
cipe, because no one can possibly tell
that you darkened your hair, as it
does it so naturally and evenly. You
dampen a sponge or soft brush with
it and draw this through your hair,
taking one small strand at a time;
by morning the gray hair disappears,
and after another application or two,
your hair becomes beautifully dark,
thick and glossy and you look years
younger. Agents, Hall's Drug Store.

STOP CATARRH! OPEN
NOSTRILS AND HEAD

Says Cream Applied in Nostrils
Relieves Head-Colds at Once.

If your nostrils are clogged and
your head is stuffed and you can't
breathe freely because of a cold or
catarrh, just get a small bottle of
Ely's Cream Balm at any drug store.

Apply a little of this fragrant, anti-
septic cream into your nostrils and
let it penetrate through every air
passage of your head, soothing and
healing the inflamed, swollen mucous
membrane and you get instant relief.

Ah! how good it feels. Your nos-
trils are open, your head is clear;
no more hawking, snuffling, blowing;
no more headache, dryness or
struggling for breath. Ely's Cream
Balm is just what sufferers from
head colds and catarrh need. It's a
delight.

Newarkites Can Now Talk
Direct to San Francisco

Up to this date there has been no
call put in at the local Bell telephone
exchange for any one at San Fran-
cisco but arrangements are now com-
plete for long distance service be-
tween Newark and other cities and
the Golden Gate city. A call from
Newark to Frisco would necessitate
a circuit to New York, where it
would be connected directly with the
New York-Frisco line.

The Columbus-San Francisco rate is
\$16.45 for the first three minutes. For
each succeeding minute the cost will
be \$5.15.

It is expected that this real long-
distance business will grow gradually,
but that it will assume profitable pro-
portions by the middle of the sum-
mer, when the Panama Exposition is
in full swing.

One of the coincidences in connec-
tion with the new transcontinental
telephone service is that it comes at
the same time as the opening of the
Panama Exposition, while the origi-
nal telephone made by Dr. Alexander
Bell was one of the wonders of the
first big American exposition, that in
Philadelphia in 1876. The instru-
ments had been constructed only a few
months before that opened, just as the
new line has been completed only a
few weeks before the big exposition
opens. Emperor Don Pedro of Brazil
was one of the first important person-
ages to marvel at the first telephone
in the world.

It is a matter of less common knowl-
edge, however, that the present trans-
continental line cost considerably
more to build than did the Panama
canal. Yet the canal became possible
only by government aid, while the
ocean-to-ocean wires were stretched by
the aid of private investment. The
canal cost \$20,000,000 and required
nine years to build. The telephone
company, in the same space of time,
has spent twice that amount of money
in construction work alone.

The reason for this is that in order
to bridge the last gap which remained,
that between Denver and San Fran-
cisco, it was necessary to attune the
entire national service anew. Every-
thing had to be made more acutely
sensitive, more perfectly responsive.

The line just completed across 13
states, is 3,500 miles long, and is
carried on 130,000 specially selected
poles. Four hard-drawn copper
wires, 165-inch in diameter, run
side by side the entire distance. This
gives what are called two physical
circuits and one phantom circuit.

The phantom circuit is exactly as
serviceable as the physical ones. It
is caused by the "induced currents,"
which flow over the other wires. For
every set of regular circuits there is
one phantom circuit.

One mile of a single strand of
wire weighs 425 pounds, while all
the copper on the ocean-to-ocean
circuit amounts to 2960 tons.

Two inventions have contributed
materially toward the possibility of
talking across the continent. The
first of these is the process of mak-
ing hard-drawn copper wire. In the
old days, telephone circuits were on
iron wire and later ordinary soft
copper wire was used. This is too
soft, however, for extensive circuits.

The hard-drawn wire is more expen-
sive, but is worth the cost.

The other invention is the so-called
"loading coil," perfected by Dr.
M. I. Pupin of Columbia University.

These coils consist of very fine soft
iron wires .004 of an inch in diam-
eter and wound into coils, distributed
at intervals throughout the circuit.

In the wire circuit of 3500 miles
there are 13,630 miles of this soft-
iron wire.

Dr. Pupin's difficulties in getting

the telephone experts to take his
"loading coils" seriously constitute
a story in themselves.

A few years ago, he was an ener-
getic and deep-thinking student of
telephony in Austria. His experi-
ments soon convinced him that he
had a valuable appliance in his
"coil." He attempted to interest the
telephone experts of his native coun-
try in his invention but the possibi-
lities were too vast for them to grasp.

The telephone business in Austria,
like most European "phone systems,
is a government monopoly and they
do not take kindly to innovations in
the matter of appliances and attach-
ments.

Dr. Pupin spent his entire fortune
trying to get the Austrian govern-
ment to adopt his "coil" for long
distance work and when his re-
sources were exhausted without suc-
cess, he determined to come to
America and try his luck here. He
knew that the telephone industry
was developed to a wonderful ex-
tent in this country.

When he landed in New York, he
was penniless. He secured a posi-
tion as a baker in an East Side estab-
lishment to provide a temporary in-
come until he could get his bearings.
Before long, he became recognized by
the faculty of Columbia University
and it was through this institution
that his invention came to the notice
of President Vail of the American
Telephone and Telegraph Company.

It did not take the "phone tele-
phone men long to realize the possi-
bilities of Dr. Pupin's invention and
quickly, they arranged for the
rights to use this invention in
connection with long distance tele-
phone lines.

Without Dr. Pupin's invention,
telephone men declare that it would
require a copper wire 16 inches in
diameter to carry current of suffi-
cient strength to transmit vocal
messages across the continent.

It is the necessity for these coils,
as the device is at present consti-
tuted, that would make difficult a
transoceanic telephone service. Dr.
Pupin in a recent interview, stated
that wireless telephony was making
such progress that it would be es-
tablished in all probability, before
any corporation would feel justified
in undertaking the tremendous ex-
pense that would be represented by
a submarine telephone cable. As its
purpose of the loading coil, as the
inventor explains it, is to decrease
the amperage and increase the volt-

LYNCH LAW

IS INVOKED TO AVENGE THE DEATH OF A KENTUCKY CONSTABLE.

Fifty Men Rode Into Mayfield, Took Man From Jail and Hiddled Body.

(Associated Press Telegram)

Mayfield, Ky., Feb. 10.—Thos. Tinker, white, who, it is charged, shot and killed Constable Richard Tart, was taken from the county jail here late last night and lynched. His body was then riddled with bullets.

The lynching was done by fifty or more men who rode in from the northern part of the county, where the shooting of the constable took place. Some of the men were masked.

Arriving in town, the band of lynchmen went directly to the jail, where they demanded that Tinker be given over to them. Jailor Douglas saw the futility of resistance, it is said, and the men took Tinker from the jail and hanged him to a tree on the south side of the courthouse.

The shooting of Constable Tart occurred Monday at Melber, where he and Constable Skazas attempted to arrest Tinker on a charge of housebreaking. The constables no sooner informed Tinker that he had a warrant for his arrest, when it is alleged, the latter opened fire and shot Tart. Tart died later in a hospital.

RUSSIAN DUMA HAS RESOLVED TO CONTINUE THE WAR

(Associated Press Telegram)

Petrograd, Feb. 10.—Resolutions expressing the conviction that Russia would carry on the war until the peace of Europe is assured, were adopted by the duma, at the close of its sitting yesterday. The resolutions which were adopted without a dissenting vote, said in part:

"The duma expressed its firm conviction that the great national and liberating objects of the present war will be achieved and declares the inflexible determination of the Russian nation to carry on the war until conditions shall have been imposed on the enemy assuring the peace of Europe and the restoration of right and justice."

At the close of the speech of Foreign Minister Sazonoff, which was received with loud applause, Prof.

RUSSIANS

IN REPORT CLAIM TO HAVE ANNIHILATED ONE ENTIRE GERMAN BATTALION

"Several Tens of Thousands" Left by Teutons on Field, is Petrograd News.

(Associated Press Telegram)

Petrograd, Feb. 10.—The general staff of the Russian army has given out an official statement as follows: "The Germans who gradually had been concentrating in East Prussia with fresh troops began a series of energetic reconnaissances and on Feb. 7 they opened offensive operations with considerable forces, in the district between Horzele and Johannisburg. They undertook at the same time active operations on both wings of their front in East Prussia. In the vicinity of Lasdehnen, to the east of Tilsit, we drove back a German attack and succeeded in almost completely annihilating one of the German battalions, our cavalry moved forward in the direction of Rypin. On the left bank of the Vistula during the day of Feb. 8, the enemy showed no signs of activity.

"Judging from the corpses abandoned by the Germans in front of our positions, they would appear to have lost in dead and wounded 'several tens of thousands' of men in the six days fighting in front of Borjow, Gommene and Wola Szydlowiecka. "In the Carpathians the fighting continues in the vicinity of Bartfeld and Svidnik. The enemy here undertook active operations, but they did not thus continue and they finally retired leaving prisoners in our hands.

"In the vicinity of Mount Loup, we continued our pursuit of the enemy and in one day we captured 69 officers, 5,200 men and 18 machine guns.

"German columns, having made their way over the Tukholka Pass delivered during the day of Feb. 7, no fewer than 22 violent attacks upon certain heights in the region of Kozlowka, occupied by us. The Germans came forward to this attack several ranks deep, presenting a full front line. Under our violent cross-fire the Germans here twice took possession of a certain height, but they were dislodged by counter attacks delivered by our infantry.

"This success was preceded by long and violent hand to hand fighting with the bayonet, which is without precedent in history. The losses sustained in this engagement by the Germans were exceedingly heavy.

"Attacks of the enemy in the vicinity of Wyschkowo also were repulsed.

"In the Black Sea, the former German cruiser Breslau (now a unit for the Turkish navy) bombarded Yalta in the Crimea. Our cruisers of Feb. 8 shelled a Turkish battery at Trebizond, and sunk one steamer. Another steamer loaded with provisions and a two-masted schooner were sunk near Leross.

"In order to attack our position near Kozlowka, the Germans commenced their concentration of troops the night of Feb. 7. Early the next morning they began the delivery of an irresistible offensive movement and their attack was supported by a very violent fire from their heavy artillery. They were successful in gaining an important height occupied by us, but they were promptly driven from this position before our bayonets.

"Toward evening the Germans in very considerable numbers took possession of the highest position in our line, from which they were dislodged only after a desperate fight. Before retiring they exhausted all their strength in a stubborn resistance to a general counter attack on our part, a feature of which was an unprecedented encounter with the bayonet.

"All the side of this hill was covered by German corpses. In front of one of our battalions more than 1000 German dead were counted.

"Among the trophies captured near Kamionare were three mine throwers. At Rawka, near the railroad to Skiernewice, Russian foot soldiers were successful in throwing eight bombs into the German trenches. These missiles caused great destruction.

"Russian aviators threw bombs on German troop trains near Rawka. "The general staff of the Russian army in the Caucasus communicates under date of Feb. 8 that there has been no engagement of importance to record."

COUNT BONI IS REFUSED DIVORCE BY THE VATICAN

(Associated Press Telegram)

Paris, Feb. 10.—The Holy Tribunal has refused Count Boni de Castellane's suit for the annulment of his marriage to Anna Gould, now the first wife of the late Count de Castellane, according to a special despatch from Rome. Arguments in the third trial of the case were held yesterday after which the court announced its decision.

Count de Castellane's appeal to the Vatican courts for the annulment of his marriage to Anna Gould has been pending since 1910.

De Castellane based his petition upon affidavits made by Prince De Drac and Jean de Castellane, the count's brother, who declared that the marriage had been contracted in violation of an hour before the ceremony was performed that a pretended divorce had been obtained from the pope.

Anna Gould, a sister of the late Joe Gould, is married to Count de Castellane in New York City on Mar. 4, 1907.

Granville

(Special to The Advocate.)

Granville, Feb. 10.—The "Family Party" given in the social rooms of the Baptist church last evening by the second division of the Social Union, was one of the most delightful church entertainments these old parlors have ever witnessed. Mrs. H. W. Henderson is leader of the division and Mrs. C. E. Goodell was chairman of the committee on entertainment. The great lecture room was transformed by the magic of tasteful planning and hard work, into a handsomely appointed living room with a large library table in the center, covered with books and magazines. Numerous other tables holding games of various kinds for the young people were scattered about. A large mahogany davenport with its quota of comfortable pillows, together with many easy rockers, arm chairs and rugs were suggestive of home comfort, while the hidden vault of the ceiling was partially hidden above festoons of innumerable little red hearts, strung from chandelier to chandelier. The church orchestra made up of several young people of the church, gave an attractive program and dainty refreshments were passed during the evening. At a beautifully decorated table, cocoa and coffee were poured by Mrs. Raymond Pence and Mrs. Walter Livingstone. About one hundred and fifty people were in attendance and voted it the most enjoyable church "party" in many years.

After a few days' vacation, Denison opened Tuesday morning for the second semester, under favorable auspices, although there is some sickness among both faculty-members and students. Professor Kull is still confined to his bed, but his improvement is such that it is promised he shall sit up by the end of the week.

Dr. R. S. Colwell will be unable to meet his classes for several days as he is confined to his bed with a severe attack of grippe or influenza.

The first number of the Granville Music course is assured for Tuesday, February 16. This is the Philharmonic String Quartette which has been playing together with only one change in personnel for the past eighteen years, and this insures perfect ensemble and control of tone and rhythm. The complete program will be announced next week. It is expected to contain the much discussed Debussy Quartette Opus ten. The opportunity of hearing a concert of this character is one that should be accepted by members of this community because it is by such means that the cultural life of the community is enriched. Course tickets for the seven concerts will be reserved, Thursday, February 11 at Recital Hall at 3:30. Every one in the community with a particle of civic pride or college spirit, should invest in at least one course ticket. No such attractions have been offered in Granville for years, and it should be accounted a privilege to attend such high class concerts right here at home.

The "Travelers" having left the Philippines behind last week, were interested in Guam Monday and gave a delightful program of facts connected with this most southernly of the Pacific Islands, situated in the United States by Spain in 1898, and though there isn't much trade there, the United States expects to make it at least self-supporting. It serves as a cable station at present. The program as presented Monday by three of the club's talented members was as follows: "Current Events," Mrs. J. C. Malone; "The Little Island," Mrs. Susan Bawden; "Ocean Cables," Mrs. Christine Cook.

In the paragraph in Monday night's Advocate noticing Prof. Henry Preston's song recital which is to be given this evening in Recital an error appeared. He will sing a Song-cycle of "Saracen Songs" instead of sacred songs as printed.

The Denison Athletic Association has appointed a committee which is to have full charge of all skating activities. This sport is becoming increasingly popular in Granville and the intention was to put it on a more permanent basis. The committee will have for one of its duties, the careful investigation of conditions so as to report to the student body when there is safe skating. It is hoped that the sport may be indulged in by a greater number of men and women under conditions that will be safe.

Mr. and Mrs. J. S. Jones, accompanied by Mrs. Howard Darow, motored to Columbus Monday night to attend the Fritz Kreisler concert in Memorial Hall.

Miss Joe Carmen of Marietta, daughter of Rev. and Mrs. A. S. Carman, formerly of Granville, has entered Sheperdson college.

Mr. Harry Fulton of Newark was calling on Granville friends Monday.

Dr. and Mrs. W. H. Sedgwick of Newark were guests of Granville friends on Sunday.

Mrs. Theodore Johnson and Miss Mary McKibben were among the Granville patrons of the Fritz Kreisler concert in Columbus, Monday. Motorists report a quick and comfortable trip.

Out of town relatives who attended the funeral of Mrs. John Robinson at the family residence on West Broadway, Monday, were: Mrs. Lillian Brown, Miss Edna Wortman, Cadiz, O.; Mr. and Mrs. T. B. Robinson of Hebron; and Mrs. Kate Amos Barker of Cambridge.

A cottage meeting will be held at the home of Mr. and Mrs. C. E. Frank on Centerville street this evening at 8 o'clock. Special music will be furnished by students from Sheperdson college.

This evening is the date for several different public entertainments. One in the Opera House for the public school; an inter-class basketball game in Cleveland hall, and the Faculty Recital in Recital Hall by Mr. Henry Preston, begin at 8 o'clock to which the musical public is invited.

Dr. and Mrs. C. J. Loveless, who have been in New York for the past week, have returned to their home in Broadway.

To be strong is to be happy.—Longfellow.

OPERATORS

WILL DECIDE AT CONFERENCE WHETHER EASTERN OHIO MINES WILL OPEN

Upon an Open Shop Basis, Which Policy Was Abandoned Some Weeks Ago.

(Associated Press Telegram)

Cleveland, O., Feb. 10.—Whether there will be a concerted effort on the part of eastern Ohio coal operators to operate their mines in the strike zone, was to be decided at a meeting of the operators' association here today.

Several weeks ago they decided to open their mines under the "open shop" policy, but this plan was abandoned when Secretary of Labor W. B. Wilson appointed Daniel J. Keefe and Hywel Davies to act as conciliators in the hope of settling the strike of 15,000 miners which was called the first of April, last. The federal representatives failed to bring about a settlement, however, and joint conferences to this end were formally adjourned late yesterday after miners' representatives finally stated they could not accept proposals of the operators to arbitrate the difference.

Before the operators went into session today, some of their number said they did not favor resumption of the mines at this time. Several of the operators who have large holdings in the West Virginia coal fields said they likely would devote their attention to those mines, abandoning the Ohio field for the present, at least. None, however, would predict what action would be taken at today's meeting.

Statements of the operators today, however, were unanimous that "we are not responsible for a continuation of the strike since we offered to arbitrate all differences, even suggesting that President Wilson name the seventh member of an arbitration board, and the miners' officials refused all arbitration proposals."

The operators had in their possession a signed statement of the conciliators which was presented to the joint conference here, and which they interpreted to mean that the federal representatives held that the operators' contention with reference to computing the basis of the scale in Ohio was correct and that of the miners' officials wrong.

Beyond saying that the operators or miners' officials were at liberty to make public any written statement, they submitted to the joint conference, Messrs. Davies and Keefe would make no statement. They planned to leave soon for Washington, where they will submit a report of their efforts to end the strike to Secretary of Labor Wilson.

Sprinter Will Race Then Run for Train

(Associated Press Telegram)

New York, Feb. 10.—Joseph G. Loomis, a Chicago sprinter will continue sprinting after he crosses the tape in the 70 yard scratch race at the New York Athletic Club indoor meet at Madison Square Garden tonight and will dash on through the lobby and the main entrance into a waiting taxicab at the curb. In the taxicab Loomis plans to change to traveling apparel and if possible, reach the Grand Central terminal in time to catch an 8:34 train for Chicago.

The 70 yard scratch race in which he has come from Chicago to run is set for 8:15. This will give him 19 minutes in which to run the race and catch his train.
